IN Offering this stock of goods to the inhabitants of Newport and vicinity, I am aware that the satisfaction of making a good bargain is incomplete—it is not realized when the purchaser does not know that he is receiving for his money the very best return. Counting.—An exchange says:—There are few operations which one has to attend in life, that require more delicate management, more truly scientific skill, than that of counting. One of the most perplexing questions about the business, is, How long shall one's labors in this line be protracted? There are some lovers who carry the heart they wish to capture, at once, by storm; while others besiege the flint-walled affections of their mistresses for a period greater than the Greeks required to siege and sack Ilium. We think a modern writer hits the happy medium. "A man," he says, "should not be too cowardly nor too bold in his courtships. The Bonaparte system of tactics may be used advantageously. Concentrate the forces of your charms on the enemy's weakest points, and depend upon it her human nature cannot resist you long." That's the idea!

BRAVE WOMEN.—The New York Sunday Dispatch says that so many women, in France, have enlisted in the army, disguised as men, that the government has issued an order for inspection and discovery. We must certainly give this spirited and enterprising sex something to do, or they will invade all masculine employments.—We have female preachers and lecturers, female physicians are patronized and preferred in our most fashionable circles, and there is no knowing how soon we may have eloquent and ingenious ladies practising at the bar—not as bar-maids but as barristers.

Female writers and editors strike their quills to no one; female artists excel all but the great masters; and female teachers are confessedly better than males. It is hard to say what women cannot do, nearly or quite as well as men.

DESCRIPTION OF A BAD ROAD.—"Stranger, which is the way to the village?"—"There's two roads," responded the fellow. "Well, which is the best?" "Aint much difference: both on 'em very bad. Take which you will, afore you've got half way you'll wish you'd luck tother."

THE DAILY NEWS.

Newport:

FRIDAY MAY 26, 1848.

BY O. F. JACKSON, 97, THAMES-ST.

ADVERTISERS will please bear in mind that the circulation of the DAILY NEWS is greater than that of any other paper published in Newport, or the combined circulation of any two papers issued from one office. As one proof of this fact, the list of letters remaining in the Post Office are advertised in THIS PAPER, as BY LAW REQUIRED.

The Providence Transcript manifested a good deal of temper in regard to our article making a comparison between the Fire Companies of that City, as they appeared in procession at the Vinton Funeral, and the Fire Companies of Newport, as they always appear when on parade. In the first place, it thought our remarks unworthy of notice; but afterwards, as a correspondent called the editor's attention to the subject, he came out with a bragging article, ridiculing the idea that our Firemen could be compared to those of any other place, and concluded by saying that some little "Catact" Company of that city could wash our Firemen out of their boots. We presume that while the editor had his hand in, he thought it as well to tell a respectable sized fish story as not, for he undoubtedly remembered the old adage that it is as well to be hung for an old sheep as a lamb. Now the idea of his flourish about washing is perfectly ridiculous. The Providence people always make a great cry about small matters, but then, in reality, it never amounts to much.

Our Firemen are some of the most respectable young men in town, who devote their time and money to the cause, not for the purpose of escaping the jury box or the performance of military duty, but because they feel on honest pride in the matter, and they therefore go into it with a whole soul and a spirit which must inevitably place them beyond competition. We have among them none of your noisy, riotous rowdies, who contrive to get up a disgraceful flight whenever they are out as in Philadelphia and some other places; but they are sober, respectable, industrious and influential men. They pay great attention to drilling, are no particular in regard to their dress as a military company, and are, in all respects, an honor to the ancient capitol of Rhode Island. Three are our reasons for saying what we did a few days ago, and which has so irritated the Transcript man. We give our reasons for our assertions, and they are such as cannot be winked out of sight, or controverted, particularly by a wholesale assertion that some little company of boys in Providence can wash our Firemen out of their boots!

If the editor of the Transcript or the Firemen of Providence, want to be convinced of the truth of all that we have said on this subject, let them come to Newport on the Fourth of July, and witness the great Firemen's parade in the procession that day, and they will not only acknowledge that we have spoken entirely within the bounds of reason, but the editor of the Transcript and his little "Catact" company will be glad to make a hasty retreat from the overwhelming presence of our Newport "water dogs," as we have heard our Firemen called. Water is the peculiar element of all Newporters, and the idea that a few boys from a inland village like Providence, can drown out those who live and breathe in Neptune's element, is as perfectly preposterous as any that a modern Maunchausen could possibly conceive of.

BENEFITS OF ADVERTISING.—A friend of ours lost a valuable ring on Tuesday evening, and advertised it in yesterday's paper; the result was that the ring was restored to the owner before eight o'clock yesterday morning. All this is the benefit of advertising, and if our citizens wish to make their wants known, and to bring their articles of merchandise to the notice of the whole community, as well as to the citizens of the adjoining towns, they must have their advertisements inserted in the Daily News. In this way they are sure to be read by almost every one in and about Newport, and it is the most effectual way to ensure success in business, to secure large sales, to recover lost property &c., &c. Our circulation is increasing as the busy season approaches, and we can conscientiously recommend and guarantee the Daily News as the best advertising medium for all classes of persons.

(Correspondence of the News)
New York, May 23d, 1848.

Mr. Editor:—After an absence of many weeks from Gotham, it really seems pleasant to be once more threading the familiar streets of this great metropolis. It is astonishing to witness the changes that occur here during the space of a few weeks. In some instances I perceive elegant mansions are nearly completed, where but recently the lot was a mere common.

The weather for the last few days has been so extremely hot, that vegetation has wonderfully improved, and the Battery and Park look most charmingly. The grounds around the Fountain have just been much embellished with beautiful shrubs, and it is now a great ornament to the city.

As I was coming down Broadway this morning, the rooms of the "Art Union" attracted my observation, and I was disappointed, as I promened its spacious halls, at not witnessing any thing from the pencil of your talented townsman, Mr. Mason. Surely Mr. M.'s paintings are deserving a place within his room, and I trust I shall yet have the pleasure of seeing them ornamenting and gracing its walls.

Gen. Scott is expected in the city on Thursday, when he will meet with a reception worthy of so gallant a hero. He will discover that although at present under the "Executive dispensure," yet New Yorkers will ever do honor to the "brave and great." He will stop at the "Astor." The grounds of the "Rockland Cemetery" will be consecrated one day of this week.—The Cemetery is on a most lovely and romantic part of the banks of the Hudson, about twenty miles from New York. As visitors are to be conveyed free of expense, a large company is expected to be present, and the services will doubtless be very imposing. This makes the ninth Cemetery of this nature, as regards size and beauty of location, that has been set apart to this sacred purpose within the last few years, and no greater evidence of the growing refinement of our people is needed, than is observable in the attention that they are paying to the final resting place of departed friends. Yours truly, ANTHRA

BALTIMORE CONVENTION.—Nothing had been accomplished by this convention on the 24th. The double delegation from New York seemed to retard the progress of the convention, as it could not be decided which of the delegates to admit to seats. So far as right goes, we think the "Old Hunker" delegation, as it is termed, is the only one that is entitled to a seat, for they were nominated by a regular Democratic State Convention, called in the usual form; and the other party within the party, called "Barn Burners," not liking the manner in which affairs were conducted, called another State Convention, and nominated other delegates; and now the question with the convention seems to be, which of these delegations is entitled to seats? Those being the facts, we should not think it would require much deliberation to decide this point, for, most assuredly, the first appointed delegates are the only ones that have any right to a seat in the convention; but, for the sake of "keeping peace in the camp," we think policy dictates that both delegations should be admitted, and we doubt not that the following preamble and resolution, offered by Mr. Boss, of North Carolina, will be adopted. It reads as follows:

"Whereas there are two sets of delegates from New York, each claiming to represent the democracy of the State; and whereas it is impossible for the convention to decide this important and intricate question, having no evidence before them, but that furnished by themselves, both of whom were materially interested parties; and whereas it was conceded that each delegate represented large sections of the democracy of New York, and it was important that the said State should be fully represented; therefore, be it resolved that both delegations be admitted to seats in this Convention, and entitled to vote on all questions that they wish to."

The Fall River News gives an account of a threatened revolution among the "Farmvilleonians," and it was thought at the last advices, that the Mayor of the city would "abdicate," in favor of the editor of the News, we suppose.

There are twenty flouring mills in Rochester, with an aggregate of 103 stones. It is calculated that these mills consume 3,600,000 bushels of wheat per annum, and turn out 630,000 barrels of flour.

WARM.—In Philadelphia, on Monday, the thermometer stood at 92 degrees.

Lieut. Mayne Reid was in New Orleans on the 14th inst. We hope to see him in Newport again this summer. Lieut. Reid has had the pleasure, if it may be so considered, of reading his own obituary written under the impression that he was dead, and published in the News sometime since. But few men are permitted to know what will be said of them after they are dead.

While we were laboring under the impression that he had ended his earthly pilgrimage, a letter came to hand from him, announcing the intelligence that he had been very near the "far off spirit land," but that he had recovered and still continues to be an inhabitant of this "mundane sphere." This we were happy to hear.

FROM THE BRITISH WEST INDIES.—We have files of the St Louis Palladium to the 24th inst. inclusive. From all parts of the country lamentations were heard on the score of dry weather; no hopes remained of anything worthy the name of a sugar crop for the coming year. Cattle suffer in many places from the want of water, and the holidays have drawn off altogether during the early part of the month, the scanty supply of labor from the work of the plantations. The Palladium says—

"The only hope, however remote, which might have been left to the planter under these difficulties, is that which has been already blunted by the cruel policy of the home government in regard to the faithful colonies of Great Britain. From the highest to the very lowest class, is this general distress felt with grievous weight; and not the wisest head is capable of devising a plan of remedy that can intercept the dread consequences."

Advices received at St. Lucia, from Martinique and Guadaloupe, continue to report favorably of the spirit of society in those islands, under the new regime. The slaves are behaving well, and measures are in active course of preparation for the regulation of free labor.—New York Herald.

LATER FROM MEXICO.—We learn from Capt. Halloway, of the propeller Col. Stanton, which arrived yesterday from Tampico, that an express reached that city on the 16th inst., bringing the important news that a quorum of Congress had assembled at Queretaro, and were busily engaged upon the treaty of peace—which it was generally thought would soon be ratified. We also learn that the vomito had broken out at Tampico and was causing many deaths. Although the date of the above news from Queretaro is not stated, we believe it to be authentic, as Tampico is the shortest route from that place.

One of our correspondents at Vera Cruz mentions that the yellow fever was prevailing slightly at that place the number of cases being about forty per week.—N. O. Crescent, May 15.

A correspondent has written to the New Orleans Picayune, regretting that any communications should have been published in that paper calling in question the doctrines of future punishment generally received among Christians. The Picayune replies that, "in these days of revolution and progress, when the Princes of the Earth are confronted and overwhelmed, the Prince of Darkness must take his chance with the rest."

Langfeldt, the murderer of Mrs. Radmacher, at Philadelphia has been sentenced to be hung. He avers his innocence of the crime.

New Potatoes from the "diggings" round about Matamoros are spoken of by the Flag of May 4th. The potato flourishes well on Mexican soil.

At a late meeting of the Society of Antiquaries, at London, President Everett, of Harvard University, was elected an honorary member of that body. The other American members are Mr. Prescott and Mr. Bancroft. Lord Aberdeen was for a long time President of this Society; Lord Mahon is his successor.

HORRIBLE TRAGEDY.—A slave trader from the South, purchased a negro man, wife and child, lately, in Covington, Kentucky, and placed them in jail for safe keeping. The woman, in the excitement of despair, it is supposed, murdered the child, by cutting its throat—after which the man cut the woman's, and then his own. The former are dead—the latter is living, but with faint hope of his recovery.

WEALTH AND POVERTY.—In New York, where there are men worth their millions, and a great number who are possessed of princely fortunes, it is shown by the report of the Almshouse Commissioner, that fifty thousand persons during the last year were either supported entirely or assisted by the Almshouse Department, besides a large number who were aided by private charity, so that about one fifth of the whole population received charitable aid.

SPIRIT OF TURPENTINE A CURE FOR PAIN.—If any person should be stung by a bee or other insect, rub some spirits of turpentine on the place, and the pain will nearly cease in one minute.

John Donkey for last week contains a picture of John Van Buron applying to be admitted to the Baltimore Convention.—Calhoun is looking out of the window, and says—"Go away, little boy, and don't disturb the Convention." John Donkey is improving.

Are you not afraid your wife will get married again when you die? "I hope she may, as there will be then one man in the world who will know how to pity me."

LETTERS FOR THE PACIFIC.—The ship Margaret, Capt. Fayles, will sail from this port for the Pacific Ocean about the 15th of June, and a letter bag to be sent out by her, will be open for the receipt of letters at the store of Josiah Monroe, till the day of her sailing. Newport, May 25.

Its location is particularly convenient for business men, and Mr. Johnson, the popular and gentlemanly landlord, makes the comfort of his guests a constant study. May 3.

NEWPORT VICTUALLING HOUSE.—WM. W. MORRIS, announces to the public, that he has opened a Victualling House in the premises lately occupied by Thomas Sherman, in Market Square, where he intends to be supplied with the best Oysters, Meat of every kind, Pastry, Cakes, &c. Hot suppers served up in good style, and every attention paid to those who may patronize the establishment. Captains of vessels and sea-faring men generally will find this a very convenient place to stop for a dish of Oysters or any thing the market affords. April 24th.

ATTESTED BEFORE THE

MAYOR OF NEW YORK CITY. Consumption and Affection of the Liver cured of Twenty Years Standing.

CITY of New York, July 24, 1847. THIS is to certify that I, Nelson Larabee, of Jersey City, have for a period of twenty years been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system, and have been pronounced incurably consumptive. Neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was yielding hopelessly to the progress of my disease, when I was persuaded to try E. W. Vandersmith's Indian Cough Balm and Lung Balm, by the aid of which all my symptoms have been removed and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence; in gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

NELSON LARABEE, Jersey City.

Sworn to before me, this 21st day of July, 1847.

WM. V. BRADY,

Mayor of the City of New York.

P. S.—If any person wishes to see me relative to my disease, they can call on board the New Jersey Ferry Boat foot of Courtlandt-st., N. Y.

Remarkable Cure of Mrs. Fleming of Fish-

kill, New York.

New York, April 1, 1848.

Dr. Vandersmith:—My wife has been afflicted for seven years, with an affection of the lungs, accompanied with a pain in the chest and side, difficulty in breathing, and general debility. I employed the best medical skill, and they finally pronounced her lungs diseased, and consequently despaired of effecting a cure. I was induced, by the representation of a friend, to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I sent to New York for the medicine. Before she commenced taking the medicine, she was confined to her bed; her cough was incessant. After she had taken the medicine, the third day her cough abated considerably; she expectorated a great quantity of yellow matter; her difficulty in breathing subsided. Our family physician, who formerly attended her, called to see her, and he said she was improving; and advised her to continue the medicine. Although she was much emaciated from the disease, she has been restored to health, and is as able to attend to her domestic duties as she ever was. I can with confidence recommend Dr. Vandersmith's Indian Cough Balm and Lung Balm to Consumptives.

Mutual Benefit Life Insurance Co.

(Office No 21 Wall-st., N. Y.)

A *benefit society* created by the *System of Life Insurance* now in successful operation in this company.

1. Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.

2. The premium, if over \$50, can be paid one-fourth in cash, and three-fourths in a secured note at 12 months, bearing 6 per cent. interest, and subject to assessments if required, or it may be paid weekly, monthly, or quarterly.

3. Annual division of profits in scrip certificates which bear 6 per cent. interest, and if required a loan of two-thirds on the scrip will be made in cash—or the profits can be added to increase the sum insured.

4. No persons are liable beyond the amount of their premium.

5. Married women may insure the lives of their husbands, secure from any demands of their creditors, if the premium does not exceed \$300 per annum.

6. Creditors may insure their debtors; or debtors themselves, for the protection of creditors.

7. An insurance can be made so that the sum insured will be paid on attaining a specified age, or so in the event of death.

8. All claims on policies will be paid three months after notice and proof of death.

9. No risk will be taken on any one life exceeding \$5000, until the surplus profits amount to \$50,000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.

10. No Director or Officer can obtain a loan of the Company.

11. When the net profits of the Company amount to \$200,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued; but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a *pro rata* interest.

12. The funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—or in stocks of the United States, or of the States of N. York, New Jersey, Massachusetts, and Maine, or loaned to members on their Scrip.

13. No part of the profits is withheld, or diverted from the assured in any way.

14. There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.

15. It enables a man to provide for a wife and children, in such a way, that although he may lose all, they are safe; and all persons, whether married or unmarried, to provide for old age, sickness, and want, as well as for death.

16. It does not reckon the assured a year older than he is—but from six months less, to six months more, so as to equalize the same between all parties.

17. It pays no directors, auditors, or solicitors.

18. A portion of the directors and the officers are chosen yearly, and the members vote according to interest.

19. The assured can surrender the policy at any time after a term of years, and receive its equitable value.

20. Every precaution is taken to prevent a forfeiture of policy.

The *Mutual Benefit* Life Insurance Company, lives, or the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the tables, for sound and healthy persons. Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, or the age of thirty years, (and in like proportion for other ages,) by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$30,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the *Savings Bank*, with the profit on a large business, by an actual small investment or outlay of money.

All claims for insurance will be paid three months after satisfactory evidence of the death of the persons deceased is exhibited and approved.

Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

Extra hazardous risks will be taken on persons going out, or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.

What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the *certainty of the general laws that regulate its duration*, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the mean duration, or expectation of life at birth.

It is a question how such term of existence, or mean duration, is found. This is done simply by taking the number of years that have been lived through by a party from birth to death, and also of 1000 others born at the same time, and dying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum and being divided by the number of persons, the mean duration of the life of man is ascertained.

If it were found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducing the mean duration; and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant, that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 35 years, 38 years more; and of 40 years 28 years longer; then by the tables of rates, the first has to pay \$20.40-100 a year during his life, to secure, \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Benefit, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefit, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a *Mutual Benefit* Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management.—Founded on scientific principles, exemplified by experience, its real services then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such in event of death, and is therefore an institution ranking among the noblest works of benevolence in the world.

Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the endeared and dependent lives of children; for what is the situation of a man, who, for the gratification of his affection,

surrounds himself with a wife and child, and lives in the enjoyment of those valued blessings, and knowing that in an instant, the cessation of his life may throw them into a state of destitution! The neglect, then, of such a cheap and certain provision, is gross improvidence; for it is not mere a man's absolute duty, to provide while he lives the daily bread for his family, than it is against leaving them to suffer penniless misery in the event of his death. It is then a religious as well as moral duty, to be easily accomplished by weekly, monthly, or yearly earnings—and this *Life Insurance of Mutual Benefit*, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this *Mutual Benefit Company*; the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

Hyer's Pills.

The American Improved Hygienic Vegetable

SAFE, CHEAP AND EFFECTIVE.
This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.—During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessarily compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.
